

Advanced Process Data Analytics Course

3-5 June 2019

Symposium on Digitalization and Big Data in Biotech and Pharma

6 June 2019

Quick Info

ETH Zurich,
3-5 Jun. 2019: Course
6 June.: Symposium

Learn from Leading Experts in Industry & Academia

About relevant Trends, Techniques & Tools

With interactive Case Studies on Big Data

And an attractive Social Program

Course Information

Monday, 3 - Wednesday, 5 June 2019:

Teaching

- Multivariate methods for dynamic process data analytics
- Special topics: data preparation, hybrid process models & online (spectral) data
- Tools for process development, validation and production

Interactive Case Studies

- Based on real industry cases
- Versatile software solutions

Symposium Info

Thursday 6 June 2019:

Leading Expert Talks

- Challenges and Opportunities based on Big Process Data
- IT and PAT solutions towards Industry 4.0
- A variety of use cases from healthcare, chemical and pharmaceutical industry

Networking Lunch

- Discuss with Experts
- Get inspired by Exhibitors
- Meet skilled Students

Registration

Fees

- **Course:** 2500 CHF, max. 20 participants, pre-course and 2-day advanced course
- **Symposium:** 500 CHF, free for Course students
- Special university rates
- Special rate without pre-course
- **Early-bird -15%: unit 28.02.19**
- **Exhibition:** contact us for details
